ACE History

- ACE 1.0 Developed by the former Vectra group in Naperville IL
- ACE 2.0 Duke Engineering & Services (DE&S) in Charlotte NC acquired Vectra in 1996 and later released ACE 2.0.
- ACE 3.0 AREVA in Lynchburg VA acquired DE&S in 2002 and later released ACE 3.0
- ACE 4.0 TTS purchased the rights to the ACE from AREVA in 2009 and released ACE 4.0 in 2012
- ACE 4.1 Released in 2013

ACETest History

- 2008 ACETest Rev 0
 - Initial Release for Entergy Indian Point
- 2008 ACETest Rev 1
 - Minor rev
- 2009 ACETest Rev 2
 - Major changes for Entergy Corporate Use
- 2010 ACETest Rev 3
 - Renamed Software to ACETest
- 2012 ACETest Rev 4
 - Updated to Interface with ACE 4.0
- 2013 ACETest Rev 4.1
 - Total rewrite of software

Disposition for Out of Tolerance Condition	٤					

- Incorporating Design Criteria & Testing Requirements into Quiklook.
- This will be accomplished in three phases
- Phase 1:
 - Manual Input of all data into Quiklook
- Phase 2:
 - Import of Design Data & Criteria from ACETest
- Phase 3:
 - Indentify valves for outage
 - One click setup all config files and complete directory structure for use in outage testing
